## WHO AM I?

Hello! I'm Daniel Peñaloza, a Full-Stack Web Developer with a deep love for creating seamless, user-friendly web applications.

I thrive on turning innovative ideas into robust, efficient, and user-centric web solutions. Solving complex problems and collaborating with talented teams fuels my passion for web development.

## EXPERIENCE

Start: 2024-03-01  
at the moment

### Junior developer

SPA Grupo Inmobiliario

I work as a software developer, creating business applications for all the internal needs of the business group using web technologies as React.js, Next.js, Astro and mobile using Flutter.

Collaborating with a great team, training and leading members in the company software developments.

React.js / Next.js / Astro.js / MySQL / Express.js / Flutter

Start: 2022-04-04  
2024-03-01
